## SHAREPOINT CURRICULUM

Courses are relevant for both on-premise and online versions of SharePoint.

## SELF-PACED ELEARNING

# LET US BRING THE EXPERTS TO YOU.

Cprime Learning can point you in the right direction for your SharePoint and Office 365 needs.

## **Governance and Adoption**

The number one reason for SharePoint failure is due to a lack of governance and adoption plan. Our expert consultants have years of experience in deploying and implementing SharePoint from small businesses to Fortune 500 companies.

## **Migration**

Whether you're implementing for the first time or upgrading to the latest version, migration is cumbersome and needs detailed attention. Let us help ease the burden by helping you plan and implement your migration.

## **Audit**

Cprime Learning Audit analyzes your SharePoint environment to ensure your SharePoint solution aligns recommended best practices your organization's goals. It includes database optimization and set up review, security, performance designs and enhancements, configuration validation, server issues, integration with other platforms and more.

## **Site Owner and Power User**

People may be undetermined within the current organizational hierarchy of who or how solutions need to be completed. Our in-house experts teach how to enable SharePoint Site Owners and Power Users to take command of their SharePoint environments.

## **Business Capabilities**

The business process automation, business intelligence, and project management capabilities of SharePoint are endless. We can help establish processes and functions of SharePoint or teach current employees how to implement these improvements.

## **Custom Solutions**

Every organization has its own challenges and improvements they need with SharePoint. Your organization will get a proven expert to help with development, systems integration, migration, automation, or any other challenges you face.
